EIT Washington

> Affiliations

Structural Engineers Association of Washington

Experience

Sean joined the Swenson Say Fagét team in 2013. He has worked on a variety of projects including mixed-use and multi-family, commercial office, industrial and single-family residential. Sean enjoys being an integral part of the design, working with owner and design teams to provide sound structural solutions. He is involved throughout the duration of his projects, from design development through construction completion.
