

BART BLANS PE, SE | SENIOR PROJECT MANAGER

With 25 years experience as a structural engineer, Bart is proficient in masonry, concrete, steel and wood structure design. He worked with Swenson Say Fagét from 1999 - 2006 and then moved to work in Turkey and The Netherlands for six years. He rejoined SSF in 2012 and is currently working on a number of multi-family/mixed-use projects throughout the Puget Sound. As a senior project manager, Bart is skilled at managing projects from conceptual design through construction administration. He works closely with the design and owner teams to produce creative structural solutions, while adhering to the budget and schedule needs of the client.
