Structural Engineers Association of Washington

### Experience

Brett has been with Swenson Say Fagét since 2004. His experience includes project engineering and project management for custom single-family residential, multi-family residential, mixed-use, commercial, and large scale developments. Brett provides design development, project management and construction administration services. He works side-by-side the project team to design cost-effective structural solutions for concrete, masonry, and steel construction with specialized expertise in wood framing.
