

PETE KREBS PE, SE | ASSOCIATE PRINCIPAL

Pete has been a structural engineer for private and public clients since 1996, and joined SSF in 2013. Much of his career has been focused on multi-family, hospitality, commercial, and healthcare. Current key projects include the Issaquah Gateway and Spring District Phase II mixed-used developments, and various TI projects at Microsoft. His responsibilities include the design and analysis of concrete, steel, masonry and wood structures, project management through construction completion, and client development.
