

GREG JUTTNER PE | ASSOCIATE PRINCIPAL

> Education

B.S.C.E.

University of Washington | 2002

> Registration

Washington

Experience

Greg joined Swenson Say Fagét in 2004 and became an Associate Principal in 2013. He provides structural engineering solutions for wood, masonry and concrete structures for a variety of clients. Greg leads the residential retrofit group and is skilled at guiding projects of any size from conceptual design through construction completion. He produces creative solutions while adhering to budget and schedule needs. Greg's excellent communication and organizational skills are appreciated by the clients and an asset to the entire project team.
